Issue/Concern	Change Committee Mission Statement & Committee Status
Describe the issue/concern:	The Honors & Awards Committee has evolved in numerous ways over the past decade. It is no longer a policy-making group, but rather supports the foundation and the President's Office in processing recognitions such as scholarship review, staff recognition, retirement celebration, etc.
What do you recommend or suggest solving this issue/concern?	The Committee voted unanimously on 9/8/23 to seek a change from Standing Committee to Advisory Committee. The Committee voted unanimously on 9/22/23 to change the committee's mission statement. Below is that text: Honors and Awards Advisory Committee The Honors and Awards Advisory Committee assists multiple entities across the Sacramento City College campus to identify, recognize, and celebrate excellence wherever it emerges on campus. The committee provides service to the campus community in the following ways: ? Develops and publicizes scholarships, reviews student applications for eligibility, and selects recipients. ? Oversees and administers the Celebration of Excellence awards that recognize the contributions of classified professionals, faculty, and managers. ? Encourages campus-wide recognition and celebration of the service and leadership our retirees have given our campus. ? Reviews applications and administers student awards such as the Distinguished Service Award and other student recognition programs yet to be developed.
How will this recommendation support the success of SCC students and benefit the campus community?	This change does not deter nor limit the ability of the Honors & Awards committee to serve students and the greater campus community. It simply reflects the role of the committee more appropriately.
