Issue/Concern

Automatic Doors and Elevator in Rodda Halls

Describe the issue/concern:

The automatic door downstairs in Rodda North facing South, and the one downstairs in Rodda South facing the science buildings are both broken. The elevator in Rodda North is broken as well, as of 08 October. Signage for the elevator until it is fixed would be much appreciated. The issues with the automatic doors have been ongoing since last academic year, and should be checked and repaired routinely, if not weekly.

What do you recommend or suggest solving this issue/concern?

The issues with the automatic doors have been ongoing since last academic year, and should be checked and repaired routinely, if not weekly.

How will this recommendation support the success of SCC students and benefit the campus community?

We had two students with disabilities (one Reginald Castex, who wanted his name mentioned on this form) come into our meeting to emphasize the ongoing issues with the automatic doors, giving personal anecdotes and relaying the experiences of our other peers who are either unable to use stairs, or use stairs at a great cost to their wellness. Having these issues fixed will surely improve the wellness and spirits of the many students here on campus who need to be able to use automatic doors and elevators.
